

KWF DUTCH CANCER SOCIETY

Theme call for Inclusive Palliative Care Pre-proposal form

Please describe your research proposal by filling out this proposal upload template. Before starting, carefully read the instructions below:

1. The proposal upload should not exceed 6 pages, including figures, tables but not including references.
2. Please respect the following formatting constraints: Verdana, at least font size 9, margins (2.5 cm side and 2.5 cm top and bottom), single line spacing.
4. All text highlighted in grey should be removed.
5. Fill out the name of the project leader and project number in the footer of all pages of the proposal upload.
6. Please upload your research proposal as a PDF document

Parties of the Project

Project Leader

Project Leader should be added in GMS in the parties of the project tab.

Project Manager (obligatory with consortia)

Name	
Institute	
Department	
Management Expertise	

Parties of the Project

Principal Investigators (work package leaders) should be added in GMS in the parties of the project tab.

No.	Name of research partner (excl. principal investigator)	Institution, department	Type of entity		
			Nonprofit	Not-for-profit	For-Profit

3					

Collaboration

Please provide an outline of how Patient and Public Involvement (PPI) will be embedded in your research proposal and which parties are going to be involved.

Describe briefly the experience of the research consortium partners (if applicable) in the field and added value of the proposed multidisciplinary collaboration.

Please provide a succinct outline of how Patient and Public Involvement (PPI) will be embedded in your research proposal. Address strategies for actively involving patients, families, and the public in shaping the research, communicating findings, and ensuring ethical considerations.

Project Proposal

Relevance (max 200 words)

Please describe briefly based on the following subjects:

- problem description (unmet need)
- solution/research direction (description of the envisioned solution).

Preliminary data of own research (max 100 words)

Please specify briefly the results of preliminary research undertaken by you or the research team that led to the current project proposal.

Plan of investigation (max 300 words)

Please explain briefly the general aims and work plan.

Development plan

For KWF it is essential that obtained knowledge, skills and technology are made available for patients and the public. Please shortly describe which steps and actions are needed to realize implementation of the innovation/new method. Which actions will be taken during this project? And which after successful completion of this project? Please include the actions taken during this project in your plan of investigation. Consider the following topics (if applicable); applicability and wide availability in clinical practice, IP strategy, potential commercialization, legislation, reimbursement, stakeholders, risks and opportunities.

Budget

Please provide:

A cost estimation including total requested budget and if available, subdivided in project years and category costs (see example below).

Year	1	2	3	4	5	Total
Personnel						
Personnel Budget (€750 per FTE/year)						

Material						
Service Providers						
Patient Involvement						
On site visits						
Open Access						
Total						

A cost estimation and if applicable subdivided in requested budget, own contribution and co funding (see example below). If the for-profit private partner, larger >250 FTE, has an active role within the project, this party is considered a participating party and to this end must make a financial contribution: this is 10% co-financing of the KWF requested budget (in kind/in cash), of which at least €10,000 in cash.

Requested Budget	
Own Contribution	
Co-funding	
Total	

Budget summary

Please justify/specify the total requested budget.
